ABOUT MICHAEL ANDERSSON

Michael has more than 20 years of experience from working with Intellectual Property Rights as a competitive tool for business. He is experienced in IP Management and in the creation of patent strategies for creating product uniqueness and profitability for technology companies. Michael also works with licensing strategies, as well as drafting and prosecuting patent applications relating to automatic control engineering, semiconductor technology and analogue circuitry. He is specialized in patents relating to software and electronics.

Michael graduated with a Master of Science degree in Electrical Engineering from Chalmers University of Technology in 1989. He has previous experience from various positions in Sweden and the USA, including Software development at Spectra Physics (USA), Contal AB (Sweden) and microelectronics development at Ericsson Radio Systems AB (Sweden).

Michael joined Zacco in 1991.

Michael is a member of the Association of Swedish Patent Attorneys (SPOF).
