ABOUT OLAV VASSBOTN

Olav graduated from NTNU in 2023 with a Master's degree in Cybernetics and Robotics. His academic journey has provided him with a solid foundation in robotics, machine learning, and control systems. Olav has a keen interest in developing intelligent systems and exploring how automation can improve efficiency and decision-making in various industries.

Throughout his studies, Olav worked on several projects involving advanced AI techniques and robotics, combining theoretical knowledge with practical applications. His passion lies in leveraging these technologies to solve real-world challenges and contribute to the advancement of robotics and automation.

Olav is excited to apply his expertise to new opportunities in the field, continually seeking innovative solutions that push the boundaries of technology.
