ABOUT MOA HÖRBERG

Moa joined Zacco in 2025 as a Patent Attorney Trainee.

She holds a Master of Science in Engineering, Chemical Biology, with specialisation in Protein Science, from Linköping University. Following her graduation, she continued her academic path at the Laboratory of Organic Electronics, where she gained valuable expertise and experience working in research.

At Zacco, Moa primarily works within life science and chemistry, where she has a particular passion for innovations related to protein chemistry. With her strong technical background and interest in patent law, she supports clients in protecting emerging technologies.
