ABOUT CHRISTIAN L. BARDENFLETH

Christian started his career with Zacco, rejoining in 2026 after 13 years with another prominent Danish law firm. He was originally part of the development team that convinced three major IP firms from Denmark, Sweden and Norway to join forces and become the international Zacco Group that you recognise today.

A keen negotiator, litigator and IP strategist, Christian is also a renowned partnership manager and growth lead. He has always recognised the benefits of continuous communication, client and peer relationship building, and supporting the development of brand recognition and loyalty, all as fundamental parts of any firm's success. Prior to rejoining Zacco, he has spent his recent career strengthening his IP legal and litigation expertise, and building a comprehensive network of global clients, colleagues and peers.

From supporting start-ups to multinationals, Christian's expertise is actively sought by some of Europe's most well-known brands in support of their international portfolios and advice on IP Strategy, prosecution and contentious matters. His clients span a broad spectrum of sectors, including Fashion and apparel, food and beverage, shipping and maritime, pharmaceuticals, transportation and logistics, and consumer goods, among others.

Outside of private practice, Christian is the Chairman of the Danish Multiple Sclerosis Society, one of Denmark's largest patient societies. He also supports a number of worthy causes, providing pro bono advice and guidance and making use of his extensive network to generate awareness.
