ABOUT PATRIK OLSSON

Patrik has worked within the patent field since 2006 and returned to Zacco in 2018 as Regional Director in region Sweden West. In 2025, Patrik was appointed Global Director Patents heading up the newly created Global Patent Practice in Zacco.

He works with all aspects of patents including strategic counselling, commercial aspects of patents, drafting and prosecution of patent applications, novelty searches, portfolio management, claim charting, and licensing. Patrik is also experienced in valuating diverse intellectual asset portfolios and has appeared as an experienced patent law expert for clients in trials before the Swedish Patent and Market Court (PMD).

Patrik has a M.Sc. in Electrical Engineering from KTH and specializes in wireless communication, telecommunications, Internet of Things (IoT), IP technology, control and sensor systems, electronics, and computer programs. He has also worked with automotive and medtech related patent matters.

Prior to returning to Zacco in 2018, Patrik worked for seven years as a patent consultant in other patent law firms as well as being the regional director in Gothenburg for the last four years.

He is an authorized European Patent Attorney (EPA) and member of The Institute of Professional Representatives before the European Patent Office (epi).
