ABOUT LARS-ERIC GRANSTRÖM

Lars-Eric has worked at Zacco since 1992 with patent related tasks within most mechanical areas, the last years with special focus on conflicts and court related issues.

Lars-Eric also has a profound experience of the management of design registration. Prior to Zacco, Lars-Eric worked as manager at Valmet at one of the departments that handled production of industrial machines. 1994-2002 he was teaching Intellectual Property Rights at the Technical University of Luleå.

Lars-Eric has worked with the entire patenting process, both in Sweden and internationally, including US and EPO. His experience covers novelty searches, infringement assessments, due diligence investigations and freedom to operate investigations, the opposition process, as well as court proceedings.

Lars-Eric holds a Master of Science from Luleå University of Technology (LTU) of 1989. He is an authorized European Design Attorney and a Swedish Authorized IP Attorney. Lars-Eric is a member of the Association of Swedish Patent Attorneys (SPOF), the Swedish Association for the Protection of Industrial Property (SFIR) as well as the international associations FICPI and AIPPI.
