ABOUT LARS KVANUM

Lars has a postgraduate diploma in IT, majoring in system administration and development. In addition, he has been working in IT for roughly 40 years, 30 of them professionally.

He started working with funding applications in 2009 and has been concentrating on this ever since but still maintains his roots with smaller projects in his spare time. He is also passionate about pushing the boundaries of IT, which makes working on state-of-the-art projects a pleasure. Lars has written over 400 applications to SkatteFUNN, and has also ventured into other funding schemes from time to time.

In 2019, he started the funding department in Tandberg Innovation together with Marius Marøy. Tandberg became part of Zacco in 2021. At present, he is responsible for the operational control of the project side of the department in addition to quality assurance in order to guarantee the most professional work for our clients.
